THEME: FCTA LIVESTOCK DEVELOPMENT PLAN 2022-2031 IMPLEMENTATION & STAKEHOLDERS ENGAGEMENT MEETING

PREAMBLE

The breakout group had a thematic area of discussion on Facilitating Public Private Partnerships (PPP) in the FCT Livestock Development Plan, during our deliberation we arrived at fundamental points which can be included in the plan for effective and efficient implementation to improve livestock sub-sector in FCT.

Issues:

Question 1- What is the most striking part of the FCT Livestock Development Plan that fits into your thematic area (three areas/issues in order of priority)

1. Engaging Local Community
2. Safe Investment Environment
3. Systems to Enhance Investments

Question 2- What do you think are critically missing in the FCT Livestock Development Plan that will facilitate the achievement of your thematic area (three areas/issues in order of priority)

1. Absence of System and Structure for government and private sector
2. Communication gaps between the community, investors and the government
3. Conducive and enabling environment for investors
4. Lack of equity in the community (partnership)
5. Duplication of investment
6. Not leveraging ICT (Data Collection)
7. No tracking of Indigenes (Biometric)

Question 3- Suggest roles of stakeholders and timeframe for achieving your thematic area objectives

DAHS/FCT should ensure:

1. Ensuring systems are available to ease investments and partnerships
2. Engaging Indigenes in partnership with investors and National Orientation Agency
3. Resolving conflicts
4. Time Frame- 5years

Question 4- What are the commitments of syndicate group members to the implementation of the FCT Livestock Development Plan

1. Ensure continuous engagement of government on issues highlighted and proposed solutions
2. We proposed the following solutions:
 - I. Proper engagement at the community level
 - II. Cohesive communication among public and private investors
 - III. Employing people in the implementing community to ensure security
 - IV. Carry out needs assessment of the community to ensure peaceful coexistence and prevention of conflict
 - V. Seek appropriate information about the community to initiate investment
 - VI. The DAHS to assign a desk officer as a one-stop shop on matters that has to do with Livestock investment matters
 - VII. Strengthen user friendly policy
 - VIII. Align with Government programs to avoid duplication of activities

- IX. Take cognizance of the community through cooperate social responsibility
- X. Harnessing equipment hiring components to cut down on cost
- XI. Inclusion of quality management system for traceability in Livestock Production.
- XII. Cross cutting issues: Investors should carry out environmental impact analysis/assessment
- XIII. Monitor and implement gender mainstreaming component
- XIV. Shorten private investment time to encourage PPP investment
- XV. There should be a mapping system for investment cluster areas of the FCT (FCT GIS)
- XVI. We should have a framework for investment activities
- XVII. There should be Cost implication of each investment cluster aside the actual investment
- XVIII. There should be an export plan in each investment project
- XIX. There should be a frame work for Data collection and optimization
- XX. We encourage 60% local investors to 40% foreign investment in livestock production
- XXI. Sensitization of indigenes of the community by sending them outside the community for training and Education
- XXII. National Orientation Agency (NOA) should be involved in sensitization of the communities
- XXIII. Making use of Moral persuasion
- XXIV. Government should be fast and timely in carrying out Development projects
- XXV. Need for census in FCT to identify the indigenes
- XXVI. Recommendation to government to secure the land
- XXVII. The DAHS should work in synergy with Urban and regional planning, development control and other relevant departments
- XXVIII. Adherent to existing policies in the country.
